The Asset Builder Awards are a great opportunity to publicly acknowledge youth, adults and organizations throughout Newburyport who are supporting young people through their work or character. Nominated by members of the community, the recipients will be selected for the award based on their natural ability and desire to support youth in Newburyport. Their relationships with youth in the city are positive, encouraging, supporting and empowering. If you know someone that fits the bill, please consider nominating them at the following link: <https://www.surveymonkey.com/s/2014AssetAwards>
